### **This Notice of Privacy Practices applies to the following organizations.**

*This Notice of Privacy Practices encompasses all of our 6 offices, the programs within those offices, and off site clinics in which services are provided by the Northeast Colorado Health Department.*

*Northeast Colorado Health Department endorses and supports electronic Health Information Exchange (HIE) as a means to improve the quality of an individual's health and healthcare experience. HIE provides a way to securely and efficiently access patients' clinical information electronically from other physicians and health care providers that participate in the HIE network. Using HIE helps your health care providers to more effectively share information and provide you with better care. The HIE also enables emergency medical personnel and other providers who are treating you to have immediate access to your medical data that may be critical for your care. Making your health information available to your health care providers through the HIE can also help reduce your costs by eliminating unnecessary duplication of tests and procedures. Northeast Colorado Health Department subscribes to Contexture for the communicable disease program and tuberculosis programs only. NCHD does not participate in sharing any protected health information with Contexture.*
